CYBERSAFETY – IMPORTANT TIPS

- Only talk to people that you have met face to face
- Sign off if unsure – seek adult help
- Get internet devices into public places where you can check them – sites and body language
- GET DEVICES OUT OF BEDROOMS – sleep and no supervision. What is your ‘device on bench time’?
- Rules – who can they talk too? What info do they release?
- Have their passwords or be their ‘friend’
- Check privacy settings

Tell your kids, “Would you say it or flash it if that person were standing in front of you?”

Good luck! 😊
